RE: South Dayton Dump and Landfill, REQUEST FOR INFORMATION

Dear Ms. Cibulskis:

I am forwarding additional information obtained from Montgomery County Combined Health District. Enclosed you will find a map of the South Dayton Dump area. According to Mark Case of the Health District, no documentation exists concerning the origin of the map. He did say however that the map was provided by the operators. The nature of waste described in the map legend suggested to him that the map may be from the 1960's. Note also the fact that the area now encompassing Valley Asphalt is labeled as being "filled to grade." This seems to suggest the historic occurrence of some sort of excavation.

Please let me know if we can be of further assistance.

Sincerely,

Matt Justice
